SELECTMEN OF GROTON.

TREE WARDEN'S REPORT.

The principal work of the past season has been the trimming off and removal of the dead wood from the public trees of the Town. The large elm trees that line Main Street, and are also present in other parts of the town, had not been trimmed for years, and many of them were filled with dead limbs of large size overhanging the street and sidewalks, the fall of which might cause a serious accident. To remove these required the employment of expert tree climbers. These were employed and the work done as far as in the judgment of the Tree Warden the amount of the appropriation justified.

At the call of the Road Commissioners and the Selectmen, together with the requests of citizens a large amount of road trimming has been done, and still more is necessary. During the season in all the work done on trees and roadsides, but one gypsy moth was found, but a scouting party of seven men of the State force after a three weeks' canvass of the town reported as finding five gypsy moth nests and one pupæ (empty), all on private property.

The elm beetle made its appearance again this year, and although not to so large an extent as in former years, yet enough to render the spraying of some of the trees on Main Street and others necessary, which was done.

In making his expenditures during the season the Tree Warden in his judgment had reserved enough of the appropriation to go over the roads and secure the brown tail moths, and work on this was commenced as soon as the leaves were off the trees so as to get at them, but it was found that owing to the increase in the moths, with the higher rate of wages for labor, that the amount reserved was not sufficient, so the appeal to the town for more was appropriate.

I would recommend the appropriation of such a sum as will continue the work of trimming the dead wood out of the large trees as well as the trimming of the roadside of brush and wild cherry trees which afford a breeding place for all the insect pests we are troubled with.

Respectfully submitted,

CHARLES WOOLLEY,

TREE WARDEN.

REPORT OF JULY FOURTH COMMITTEE.

The committee appointed at the last annual Town Meeting for the purpose of expending the appropriation made under Article 17 in the warrant reports as follows :

The amount of the appropriation did not justify the committee in attempting the usual observance as conducted in recent years. It was decided that the entire appropriation for the occasion be expended for fireworks, and a contract was made with the well-known firm of Masten & Wells Fireworks Manufacturing Company, they to assume all responsibility and furnish the display for the amount of the appropriation, namely, \$100.00.

The committee having in charge the band concerts for the season kindly arranged with the Groton Cornet Band to furnish music during the evening, their services to be considered as one of the regular concerts of the season.

Amount of appropriation	\$100 00
Contract with Masten & Wells Fire- works Mfg. Co.	\$100 00

MICHAEL SHEEDY, JR.
HENRY W. WHITING,

COMMITTEE.

Groton, Mass., March 9, 1907.

BOARD OF ENGINEERS.

The Board of Engineers respectfully submits the following report for the year ending March 11, 1907 :

The Board organized with a choice of James B. Harrington Chief, John H. Sheedy 1st Assistant, Michael McGowan 2nd Assistant.

The property of the department is in good condition.

FIRES RESPONDED TO BY COMPANY NO. 1.

April 3, 1906, brush fire near Hazel Grove.

April 17, grass and brush fire on land of Mr. E. Clark.

April 17, 1906, grass fire, Lawrence playground.

May 4, 1906, brush fire on lann of Condon heirs.

May 16, 1906, an alarm at 4.30 a. m. for building owned and occupied by Mrs. Albert Munroe. Owing to the delay in giving the alarm the buildings were entirely destroyed.

May 19, 1906, an alarm for fire on woodland owned by J. B. Raddin near town farm, responded to by Companies No. 1 and No. 2.

Sept. 3, 1906, a small building owned by Mrs. Augustus Woods was burned. No alarm given.

Oct. 14, 1906, an alarm at 2 p.m., for fire at the Groton Inn. Company responded very quickly; fire was soon put out.

Oct. 14, 1906, brush fire on land owned by Nutting Bros. and H. P. Tainter.

Feb. 19, 1907, an alarm at 12 o'clock, noon, fire in Baptist church ; had not gained much headway when discovered ; was soon put out.

There have been a number of chimney fires attended to by members of the Department without a general alarm.

FIRES RESPONDED TO BY COMPANY NO. 2, WEST GROTON.

April 18, 1906, forest fires on land of H. C. Rockwood, Mrs. Hartwell and F. R. Hardon.

Oct. 17, brush fire on land of H. E. Kemp.

Nov. 7, 1906, fire on land of W. V. Bixby and H. E. Kemp.

JAMES B. HARRINGTON,

JOHN H. SHEEDY,

MICHAEL F. MCGOWAN,

BOARD OF ENGINEERS.

BOARD OF HEALTH.

The Board of Health respectfully submits the following report for the year ending March 1, 1907 :

The number of contagious diseases reported to the Board during the year were as follows :

Diphtheria	2 cases
Scarlet fever	3 cases
Measles	98 cases

In addition to these there were many cases of measles which were not reported, as they should have been according to law. Throughout the spring there were also many cases of whooping-cough and chicken-pox.

According to a recent law all animals slaughtered for food which are to be taken into another state must be inspected and approved by the local Board of Health. Nine such inspections were made by a representative of the Board, and in each case the meat was found free from disease.

SOLON R. DODGE,

HERBERT B. PRIEST,

HERBERT C. ROCKWOOD,

BOARD OF HEALTH.

REPORT OF PARK COMMISSIONERS.

The Lawrence Playground has been used during the past season to as full an extent as possible in its present condition. A plot of ground was appropriated for the school gardens that have been so successfully conducted in past seasons. The Tennis Court was put in condition early in the season and was in constant use until early Autumn.

The great need of the playground is a suitable base ball field. Interest in the national game does not appear to lag, as is evidenced by the large attendance at the games on Shumway Field, which, since its completion, has been used by the townspeople when not in use by the students of Lawrence Academy. This arrangement, however, is but temporary and may be terminated at any time. The Commissioners believe the town should seriously consider the advisability of making an appropriation sufficient to put the Lawrence Playground in such condition that those results anticipated by the donor of the land will be realized.

Mention should be made in this report of the good work that is being accomplished by the Village Improvement Society. Their interest in the public grounds and school yards is commendable, and their activities and good works should stir our citizens to greater effort in the direction of more public improvements and greater and larger public spirit, to the end that this beautiful town of Groton may not be lacking in those essentials that appeal to a traveler passing through our streets, or to the seeker of a home who looks beyond the city limits or suburban sleeping places.

We regret to report that the Memorial Tablet opposite the residence of F. M. Boutwell was badly disfigured during the year. Complaint was made of the culprit, and he was brought before the District Court where, in view of his age and other circumstances he was placed on probation. Later the same offender was before the Court on another charge and he has been placed in a suitable institution where delinquent and wayward children are properly cared for. Arrangements have been made for putting the tablet in proper condition at an early day.

The unexpended balance will be required for the completion of the roadway from Main Street to the playground, and the repairs on the Memorial Tablet. Commissioners recommend that \$100.00 be raised and appropriated and that the revenue from the playground be placed at their disposal.

MICHAEL SHEEDY, JR.,
BURT M. BRISTOL,
LAURENCE E. BLOOD,

PARK COMMISSIONERS.

DOG REPORT.

Number of licenses issued	172
Amount paid County Treasurer as per receipts on file	\$378 00

TOWN WARRANT FOR APRIL 2, 1906.

COMMONWEALTH OF MASSACHUSETTS,
MIDDLESEX SS.

To any Constable of the Town of Groton :

GREETING :

In the name of the Commonwealth aforesaid, you are hereby required to notify and warn the inhabitants of said town, qualified by law to vote in town affairs, to assemble in the Town Hall, in said town, on Monday, the second day of April next, at eight and one-half o'clock in the forenoon, to give in their ballots for a Town Clerk, three Selectmen, three Overseers of the Poor, three Assessors, Treasurer, two School Committees, one for three years and one for one year, two Auditors, one member of the Board of Health for three years, two Trustees of the Public Library for three years each, one Trustee of the Luther Blood Free Public Lecture Fund for three years, Collector of Taxes and three Constables, two Park Commissioners, one for three years and one for two years, one Tree Warden for one year, three Road Commissioners, one for three years, one for two years and one for one year; also, to vote "Yes" or "No" on the question, "Shall Licenses be granted for the sale of intoxicating liquors in this town?" The polls will be open at eight and one-half o'clock A. M. and may be closed at one o'clock P. M.

Also to act on the following articles :

Article 1. To Choose a Moderator.

Art. 2. To hear and act upon the report of the Selectmen and other town officers.

Art. 3. To choose all town officers not required by law to be chosen by ballot.

Art. 4. To raise and appropriate such sums of money as may be necessary to defray the expenses of the town for the ensuing year.

Art. 5. To see what method the town will adopt for the collection of taxes.

Art. 6. To see if the town will accept or alter the list of jurors as revised and posted by the Selectmen.

Art. 7. To see what compensation the town will allow the Engineers, Forest Firewards, and Enginemen for the ensuing year.

Art. 8. To see if the town will authorize the Town Treasurer, subject to the approval of the Selectmen, to borrow such sums of money, in anticipation of taxes for the year 1906 as may be necessary for current expenses.

Art. 9. To see if the town will raise and appropriate the sum of seventy-five dollars for the decoration of soldiers' graves, or take any action in relation to same.

Art. 10. To see if the town will raise and appropriate the sum of forty dollars for the care of the old burying ground, or pass any vote in relation to the same.

Art. 11. To see if the town will raise and appropriate the sum of twenty dollars to care for the clock in the Baptist Church.

Art. 12. To see if the town will raise and appropriate a sum of money for the protection of shade trees in the town, or take any action in relation to the same.

Art. 13. To see if the town will rescind the vote whereby they voted to elect three Road Commissioners, or take any action in relation to the same.

Art. 14. To see if the town will raise and appropriate a sum of money sufficient to build a sidewalk from the end of the present walk, at the house of M. F. McGowan to the house of James Fallon, or take any action in relation to the same.

Art. 15. To see if the town will raise and appropriate the sum of two hundred dollars for the purpose of having band concerts, or take any action in relation to the same.

Art. 16. To see if the town will raise and appropriate the sum of five hundred dollars to build a sidewalk from the property of Michael Moran to the land of J. T. Shepley, on the road from West Groton to Pepperell, or take any action in relation to the same.

Art. 17. To see if the town will raise and appropriate a sum of money for the celebration of Fourth of July, or take any action in relation to the same.

Art. 18. To see if the town will raise a sum of money to build a sidewalk from Main Street to Whiting Avenue, on West Street, or take any action in relation to the same.

TOWN WARRANT FOR JANUARY 14, 1907.

COMMONWEALTH OF MASSACHUSETTS,
MIDDLESEX SS.

To any Constable of the Town of Groton :

GREETING :

In the name of the Commonwealth aforesaid, you are hereby required to notify and warn the inhabitants of said town qualified by law to vote in town affairs to assemble in the Town Hall in said town, on Monday, the fourteenth day of January current, at eight o'clock in the evening, to act on the following articles :

Article 1. To choose a Moderator.

Art. 2. To see if the town will vote to instruct the Selectmen regarding letting the Town Hall to local parties for the purpose of rehearsal, or take any action in relation to the same.

Art. 3. To see if the town will appropriate a sum of money for the further suppression of the "brown tail moth" or take any action in relation to the same.

And you will serve this Warrant by posting a true and attested copy of the same at the Post Office at Groton ; also at the Post Office at West Groton, eight days at least, before the time of said meeting.

Hereof fail not and make return of your doings hereon to the Town Clerk on or before the time of said meeting.

Given under our hands this fifth day of January in the year of our Lord one thousand nine hundred and seven.

JEREMIAH F. RYAN,
WILLIAM H. WHITEHILL,
FRANK A. TORREY,

SELECTMEN OF GROTON.

PROCEEDINGS JANUARY 14, 1907.

The meeting was called to order by the Town Clerk and the warrant read.

Article 1. Charles Woolley unanimously chosen.

Art. 2. After discussion of question it was voted to instruct the Selectmen to let the people of the town have the use of the Town Hall for the purpose of rehearsal for the sum of one dollar per evening.

The meeting then adjourned without date.

APPLETON H. TORREY, *Town Clerk.*

WARRANT FOR TOWN MEETING MARCH 5, 1907.

COMMONWEALTH OF MASSACHUSETTS,
MIDDLESEX SS.

To any Constable of the Town of Groton:

GREETING:

In the name of the Commonwealth aforesaid, you are hereby required to notify and warn the inhabitants of said town, qualified by law to vote in town affairs, to assemble in the Town Hall, in said town, on Tuesday, the fifth day of March, A. D. 1907, at eight o'clock in the evening, to act on the following articles:

Article 1. To choose a Moderator.

Art. 2. To see what action the town will take upon that part of Sec. 2 of the Acts of the year 1906 (approved April 10, 1906), that follows:

"Cities and towns by such public officer or board, as they shall designate or appoint, shall, under the advice and general direction of said Superintendent, destroy the eggs, caterpillars, pupæ and nests of the gypsy and brown-tail moths within their limits, except in parks and other prop-

erty under the control of the Commonwealth, and except in private property, save as otherwise provided herein."

Art. 3. To see if the town will appropriate a sum of money to comply with the requirements of Chapter 268, Acts of 1906, relating to suppressing the gypsy and brown-tail moth.

And you will serve this warrant by posting a true and attested copy of the same at the Post Office at Groton, also at the Post Office at West Groton, eight days at least before the time of said meeting.

Hereof fail not and make return of your doings hereon to the Town Clerk on or before the time of said meeting.

Given under our hands this twenty-first day of February, A. D. 1907.

JEREMIAH F. RYAN,
WM. H. WHITEHILL,
FRANK A. TORREY,

SELECTMEN OF GROTON.

PROCEEDINGS MARCH 5, 1907.

The meeting was called to order by the Town Clerk and the warrant read.

Article 1. Charles Woolley unanimously chosen.

Art. 2. Voted that the Selectmen be authorized to appoint an agent to carry out the provisions of said Sec. 2. Said appointment to hold only until the Annual Meeting in April.

Art. 3. Voted that the sum of three hundred dollars (\$300.00) be appropriated to be expended under the direction of the Selectmen, for the suppression of the gypsy and brown tail moth.

The meeting was dissolved.

APPLETON H. TORREY, *Town Clerk.*

TOWN WARRANT.

COMMONWEALTH OF MASSACHUSETTS,
MIDDLESEX SS.

To any Constable of the Town of Groton,

GREETING:

In the name of the Commonwealth aforesaid, you are hereby required to notify and warn the inhabitants of said town, qualified by law to vote in town affairs, to assemble in the Town Hall, in said town, on Monday, the first day of April next, at eight and one-half o'clock in the forenoon, to give in their ballots for a Town Clerk, three Selectmen, three Overseers of the Poor, three Assessors, Treasurer, School Committee, for three years, two Auditors, one member of the Board of Health for three years, two Trustees of the Public Library for three years each, one Trustee of the Luther Blood Free Public Lecture Fund for three years, Collector of Taxes and three Constables, two Park Commissioners, one for three years and one for two years, one Road Commissioner, for three years, one Tree Warden; also, to vote "Yes" or "No" on the question, "Shall Licenses be granted for the sale of intoxicating liquors in this town?" The polls will be opened at eight and one-half o'clock A. M. and may be closed at one o'clock P. M.

Also to act on the following articles:

ARTICLE 1. To Choose a Moderator.

ART. 2. To hear and act upon the report of the Selectmen and other town officers.

ART. 3. To choose all town officers not required by law to be chosen by ballot.

ART. 4. To raise and appropriate such sums of money as may be necessary to defray the expenses of the town for the ensuing year.

ART. 5. To see what method the town will adopt for the collection of taxes.

ART. 6. To see if the town will accept or alter the list of jurors as revised and posted by the Selectmen.

ART. 7. To see what compensation the town will allow the Engineers, Forest Firewards, and Enginemen for the ensuing year.

ART. 8. To see if the town will authorize the Town Treasurer, subject to the approval of the Selectmen, to borrow such sums of money in anticipation of taxes for the year 1907 as may be necessary for current expenses.

ART. 9. To see if the town will raise and appropriate the sum of \$800.00 to repair the Butler School building, or take any action in relation to same.

ART. 10. To see if the town will raise and appropriate a sum of money to defray the expense of a school physician as required by law or take any action in relation to same.

ART. 11. To see if the town will raise and appropriate a sum of money to build, renew or repair the bridge over river near Paper Mill, or take any action in relation to same.

ART. 12. To see if the town will raise and appropriate a sum of money for the protection of shade trees in the town, or take any action in relation to same.

ART. 13. To see if the town will raise and appropriate a sum of money sufficient to build a sidewalk from the end of the present walk, at the house of James Fallon, toward the Paper Mill, or take any action in relation to the same.

ART. 14. To see if the town will raise and appropriate the sum of one hundred and fifty dollars for the purpose of having band concerts, or take any action in relation to the same.

ART. 15. To see if the town will raise and appropriate the sum of five hundred dollars to build a sidewalk from the property of Michael Moran to the land of J. T. Shepley,

on the road from West Groton to Pepperell, or take any action in relation to the same.

ART. 16. To see if the town will raise and appropriate a sum of money for the celebration of Fourth of July, or take any action in relation to the same.

ART. 17. To see if the town will raise and appropriate the sum of ninety dollars for the purpose of running the Lawrence fountain.

ART. 18. To see if the town will raise and appropriate a sum of money to furnish a suitable lock-up in town.

ART. 19. To see if the town will raise and appropriate a sum of money to build a cement walk in front of the store of W. A. Moore & Co., or take any action in relation to the same.

ART. 20. To see if the town will authorize the Overseers of the Poor to sell enough pine lumber from the Town Farm to build a silo and repair the barn, or take any action in relation to the same.

ART. 21. To see if the town will raise and appropriate the sum of five hundred dollars to paint the Town Hall and Squannacook Hall and the Town Farm house, or take any action in relation to the same.

ART. 22. To see if the town will raise and appropriate a sum of money to build a walk from the sidewalk to the Hall in West Groton.

ART. 23. To see if the town will raise and appropriate a sum of money to build an additional toilet room in the West Groton Hall.

ART. 24. To see if the town will accept the provisions of Chapter 101, Sections 1, 2, 3, 4, 5 of the Revised Laws.

ART. 25. To see if the town will instruct the School Committee to open the Mill School, so called, or take any action in relation to the same.

ART. 26. To see if the voters of Groton will vote to elect their Selectmen, Assessors and Overseers of the Poor for the year 1908, one for three years, one for two years and one for one year, and thereafter one each year for a term of three years.

ART. 27. To see if the town will raise and appropriate the sum of four hundred dollars to complete the card catalogue of the Library already begun, or take any action in relation to the same.

ART. 28. To see if the town will appoint an appropriation committee, or take any action in relation to the same.

ART. 29. To hear and act upon the report of any committee heretofore chosen.

Art. 30. To see if the town will designate or appoint a Board or Agent for the suppression of the Brown Tail and Gypsy Moth, and to raise and appropriate a sum of money for that purpose, or take any action in relation to same.

And you will serve this Warrant by posting a true and attested copy of the same at the Post Office at Groton, also at the Post Office in West Groton, eight days at least before the time of said meeting.

Hereof fail not and make return of your doings to the Town Clerk on or before the time of said meeting.

Given under our hands this fifteenth day of March, in the year of our Lord one thousand nine hundred and seven.

REPORT OF THE TRUSTEES OF THE
GROTON PUBLIC LIBRARY
FOR THE
YEAR ENDING MARCH 1, 1907.

The Library building and its equipment have been maintained in good condition during the past year. Supplies have been furnished and repairs made according to the demands of the occasion. Perhaps the most noteworthy single improvement has been the replacing of the cement walk which leads to the steps.

There has been a slight decline in the circulation of books. There is, however, an offsetting cause for gratification in the increased use of the reading room; and the trustees have endeavored to make the supply of periodicals and magazines as valuable and satisfactory as possible. An increase in the use of books by West Groton is also noticed with satisfaction.

As the number of books in the Library has increased year by year, the difficulties involved in the old system of classification have become correspondingly grave. In order to ascertain whether the Library was in possession of a desired volume, it has sometimes been necessary to examine two pamphlet catalogues and nine annual reports. A gift of three hundred dollars from a friend of the Library has made it possible to begin a new system of classification which can always be kept up to date. With the money thus provided the necessary case and cards have been purchased and about one-third of the books

re-classified. It is extremely desirable that this work be carried to completion as soon as possible. The trustees estimate that the work can be accomplished for four hundred dollars, and they recommend that the town appropriate that sum for the purpose.

In connection with the re-cataloguing of the Library it was thought best to remove the paper covers from the general works, leaving them on the books of fiction and the juvenile literature.

The amounts of the several funds in the hands of the trustees, and the investment of the same, may be found in the appendix to this report.

The trustees ask for the following appropriations, viz. :

1. The unexpended balances as shown by the books as audited.
2. The sum of one thousand dollars (\$1000.00) to meet current expenses.
3. The receipts from the dog tax.

PEMBERTON H. CRESSEY.

FOR THE TRUSTEES.

I have examined the accounts of the trustees and librarian of the Public Library, and find them correct and properly vouched for.

HENRY W. WHITING, *Auditor.*

Groton, March 11, 1907.

LIBRARIAN'S REPORT.

GROTON, MASS., MARCH 1, 1907.

To the Trustees of the Groton Public Library:

The librarian herewith submits her annual report:

The re-cataloguing of the library began in June, the services of Miss E. Louise Jones being engaged for three weeks, and of Miss Florence B. Kimball for eight weeks. In this time three thousand volumes were catalogued. Miss Clarissa Coburn offered the use of her typewriter and her services for a part of the time.

The system used is the Dewey Decimal with the Cutter Sanborn numbers, this being the best system for our library. A new catalogue was much needed, and it would be hard to overestimate its practical value in enlarging the usefulness of the library.

Through the interest and generosity of Mrs. John Lawrence we were able to commence the catalogue this year.

We should like a complete set of the town documents. Where may be found a better place than the Public Library to deposit material relating to the history of the town?

The library plans to publish four times during the year a list of the new books and also fifty books of special value and interest.

Thirty-seven dollars and a half remained from the Ellen King Fund and the book committee decided to buy the Rolfe edition of Shakespeare's works in forty volumes.

Ruskin's *Modern Painters* and *Seven Lamps of Architecture*, and Symond's *Renaissance in Italy*, in six volumes.

The amount spent in replacing books is small, the greater part of the fund being used for new books.

The following books added are worthy of mention : English Literature in four volumes, *Quest of the Holy Grail*, *History of American Painting*, *Connecticut River and the Valley of the Connecticut*, *History of Andrew Jackson*, *Life of Charles Dickens*, *Autobiography of Lew Wallace*, *American Silver* and *The Stars and Stripes and Other American Flags*.

Our exhibitions from the Library Art Club have been : One hundred famous men, Famous pictures, Italian art, Canterbury, Paris, French artists, Prang platinettes and Florence.

Statistics and list of donors is added to this report.

Respectfully submitted,

EMMA F. BLOOD, *Librarian*.

CIRCULATION.

Number of days the Library has been open	296
Number of volumes circulated in West Groton	1,892
Total number of volumes circulated	11,755
Average daily circulation	39+

ANNUAL REPORT
OF THE
SCHOOL COMMITTEE
AND
SUPERINTENDENT OF SCHOOLS
OF THE
TOWN OF GROTON
FOR THE
YEAR ENDING MARCH 11, 1907.

AYER, MASS.
HUNTLEY S. TURNER, BOOK AND JOB PRINTER

SCHOOL COMMITTEE.

GARDNER H. ROCKWOOD, CHAIRMAN.

Term expires April, 1909.

JAMES T. BENNETT, SECRETARY.

Term expires April, 1908.

DR. HERBERT B. PRIEST.

Term expires April, 1907.

SUPERINTENDENT OF SCHOOLS.

JOHN H. MANNING.

TRUANT OFFICERS.

SOLON R. DODGE, FRED L. BLOOD.

REGULAR MEETING OF SCHOOL COMMITTEE.

The first Tuesday of every month at eight o'clock P. M.

SCHOOL REPORT.

REPORT OF SCHOOL COMMITTEE.

To the Citizens of Groton :

Your committee, to whom was left the heating, ventilating, and sanitary improvements at the Butler High school building, recommended at the Town Meeting last year, hereby submit their report :

The general conditions of the schools will be found incorporated in the Superintendent's report.

Last year the sum of \$11,025.00 was appropriated for school purposes and we have practically made it meet the expenses of the current year without overdrawing the account.

There are however many things that would have extended the usefulness of the schools, which we have been obliged to do without from a lack of necessary funds.

The increased cost of living, and the numerous opportunities offered to do better elsewhere, have compelled us, in some cases, to pay somewhat higher salaries to our teachers in order to retain them.

While our experience has taught us that our Superintendent has excellent judgment in selecting new teachers, yet we believe it is the best policy, within reasonable limits, to keep them, and the only practical way to maintain a satisfactory degree of efficiency.

The addition of the Commercial Course to the curriculum of the High School will also necessarily increase our expenses.

This, with the advanced price of nearly all our supplies, has made us feel obliged to ask the town to raise and appropriate the following amounts for school purposes this year:

General expenses, transportation,	
music and drawing	\$9400 00
Incidentals	1600 00
Superintendent	500 00
	<hr/>
Total	\$11,500 00

Last April the town raised and appropriated for a heating system in the Butler building the sum of \$2000.00.

At a special meeting held on June 21st, there was appropriated an additional sum of \$1800.00.

This was found necessary in order to comply with certain requirements of the state police.

These appropriations were expended as follows:

Appropriation April 2nd, 1906	\$2000 00	
Special Appropriation, June 21st,		
1906	1800 00	
From sale of old furnaces	27 50	
	<hr/>	\$3827 50
O'Toole Bros., contract on heating		
complete	\$2487 59	
O'Toole Bros., contract on sanitarities	464 22	
O'Toole Bros., extra on plumbing	46 36	
Solomon Fletcher, labor	64 00	
Other labor	99 62	
H. L. Gilson, sand and stone	8 75	
E. H. Clark, sand	7 50	
A. Winslow, mason work	95 72	
H. C. Rockwood, mason work	73 69	
H. M. Adams, carpenter work	268 62	
J. T. Bennett, carpenter work	75 18	

F. A. Sherwin, brick and teaming	\$26 10	
Shattuck's Store, cement lime and supplies	98 35	
A. P. W. Paper Co., supplies	11 80	
	————	\$3827 50

The existing conditions at the Butler building were such that the problem of arranging a satisfactory heating system was foreseen to be a difficult one, but it was not until after the state inspector had put in his word of advice as to what *must* be done that the task was fully appreciated.

Our original project, as proposed at town meeting last April, of heating with two hot-air furnaces and an auxiliary steam plant had then to be abandoned, and an all steam plant seemed to be the best remaining solution.

The removal of the sanitaries and replacing with new was also required, and we were therefore confronted with an entirely new problem.

We believe we have overcome all the important difficulties in the heating of the building, and with proper care and experience in handling will prove as satisfactory as is possible with any gravity system that will comply with the requirements of the state inspection.

We have certainly had plenty of heat in the building the past Winter, with the exception, perhaps, of the first few cold days at the early part, when it was found that the two boilers, for some unaccountable reason, did not work together just right, but this was promptly remedied by the contractors.

There has been at times a lack of sufficient heat in the halls and ante-rooms, but we believe a proper experience in managing the plant will overcome this, as there is enough heat supplied to these rooms if it is made to work as it should.

Notwithstanding the severity of the past winter, and the increased cost of coal, our fuel expense has been no

more than for the same period last year, which we believe is a favorable showing for the new system.

The new sanitary arrangements have certainly been a great improvement upon the old system and have worked very satisfactorily and without any trouble whatever.

The conditions in the basement are much improved, and with a good cement floor the little ones have a very good and comfortable play-room that can be kept clean and tidy.

While this work was being put in, it was thought best by the committee to add a wash sink and faucet in the basement for janitor's use as well as for others, and a small sink and faucet on the third floor for drinking water, no such provision having been made there heretofore.

It was also thought best to remove the service water pipe from the cold air chamber on the south side, where it has entered the building from the street, to a point farther down the basement, and thus avoid any possibility of freezing.

These items make up the principal part of the extra paid for plumbing.

We have made some needed improvements and repairs in the various buildings this year, particularly the Tarbell school at West Groton, where we installed several new black boards and removed the teachers' platforms, this being in accord with the demands of modern practice.

The buildings are now, we think, with the exception of the Butler school, in fairly good condition.

The Butler building, however, is much in need of certain repairs.

The outside wood work, the fire escape, and especially the belfry and tin roof, should have a coat of paint, for if they are neglected a much greater expense will soon be necessary.

The porches, especially the one on the south side, are bordering on collapse and we think should be taken down and replaced new or nearly so.

We believe that an appropriation for this purpose would be for the best interests of the town, and we therefore recommend the town to raise and appropriate the sum of \$800.00 to repair the Butler building.

In the Butler building this year we have equipped the north lower room with a new set of adjustable desks, utilizing the old ones to fill in vacancies in other places.

Also the desks and seats were rearranged in the south lower room, being turned to face the north, thus bringing the light from the windows on the proper side, which has proved to be a decided improvement.

For some time there has seemed to be a demand for a commercial course in our High school, which would give many of our scholars a privilege that they would not otherwise be able to attain.

The Committee considered this matter carefully, and found that by making a different arrangement in the management of the schools, they could accomplish it without interfering with the present work.

This has been done so far with little additional expense to the town.

These courses of study were finally worked out by Mr. Manning of our High school, and adopted by the Committee, the college, general and commercial, and so arranged as to best serve the wants of our pupils, and the requirements of the various higher Institutions of Learning.

A teacher was found, and the commercial course was begun with the others at the opening of the school year, last September.

The number of pupils who have availed themselves of the privilege offered, is evidence of its present popularity, and we hope usefulness.

Respectfully submitted,

For the Committee,

JAMES T. BENNETT, *Secretary.*

I, the undersigned, Auditor of the Town of Groton, hereby certify that I have examined the books of the School Committee and find them correct and properly balanced.

HENRY W. WHITING, *Auditor.*

REPORT OF THE SUPERINTENDENT OF SCHOOLS.

To the School Committee of Groton:

My sixth annual report is herewith presented to you and the citizens of Groton.

In a town whose population varies very little from year to year and in which few changes in any direction are noticeable, the Superintendent's report can simply record the events of the school year, repeat and emphasize the demands which local conditions are making upon us, and point out the new conditions and new problems which are confronting us, showing as far as may be where we stand in the march of progress and development.

No unusual demands, caused by additional enterprises or increasing business prosperity resulting in a sudden growth in the number of school children, have been made upon us. The year for which this report is written has been an ordinary one in the life of our school population. Teachers and pupils have worked together harmoniously, the children have been happy and contented, and the work has been fairly satisfactory. Of course results have not always been what has been desired and even expected; there will always be some who will fall by the wayside, some who cannot and others who will not take advantage of their opportunities. But these cases have been comparatively few and they have not been allowed to interfere in any way with the carrying out of the year's courses of study.

The most serious obstacle to the steady, daily work, and to the satisfactory completion of the year's schedule with which the schools have had to contend, was the prevalence of children's diseases during the spring term. Many children, more particularly those in the lower grades, were obliged to be out of school for a longer or shorter period on account of sickness. These absences, unfortunately, were scattered along through the greater part of the term and so reduced the numbers in some of the schools as to greatly interfere with their progress; indeed, in one or two schools the numbers were so reduced at one time, that the advisability of closing their doors for a while was considered, but looking at the situation from all points of view this seemed unwise. Besides the effect produced by this unavoidable break on the children's studies, the attendance was lowered to such an extent as to make the record somewhat discouraging to teachers and children alike. There is a commendable desire and effort on the part of many of our children to maintain a good record of attendance, and they can in no way be blamed for their spring term showing.

The condition of things in the outlying schools, the scattered and sparse population, and the question of transportation were fully taken up in last year's report. The situation is practically the same now as then. The per capita cost of these district schools is necessarily great, whether the schools are kept open, or the pupils are conveyed to the larger schools of the centre of the town.

Because of the state of affairs in the Chicopee District that school was re-opened at the beginning of last spring term, and the school is still maintained. Local conditions alone were responsible for this re-opening. In numbers it is and must be small. Whether or not it will be wise to keep it running will be a question for the future to decide.

The number of pupils in the different schools in the town, and the number in each grade of these schools, is

given in one of the tables of this report, and this distribution of pupils should be interesting to any one giving the subject consideration, showing as it does the number of grades each teacher has, and, consequently, giving some idea of the amount of work required of the different teachers.

REPAIRS.

Perhaps it is not necessary to go into details in referring to the general repairs and work done during the summer. The work may be classed under two heads, namely, that done at the Butler Building, and that of the other schools. Two things have been accomplished which have been especially acceptable to the teachers. Most of the rooms are now well fitted with good slate blackboards, and the platforms which the teachers in some instances asked to have removed have been taken away, greatly to their satisfaction. To those of us who believe in placing blackboards in every available bit of space this will mean an additional advantage in school work. There are still one or two rooms that need our attention in this respect, and when these needs are met the equipment in this line will be complete. The platforms which have disappeared were probably put in when the buildings were constructed, and at that time they were considered an important part of each room. Modern buildings and requirements seem to have no use for these elevations.

In the Butler Building an imperative need has been met by the equipment of one recitation room with thirty adjustable desks suited to the demands to be made upon it. Another year the grammar room in this building should be fitted out completely with new, up-to-date desks. Those now in use are old and entirely unfit for further service. It has been our policy to do what we could each year in this matter of room equipment, and it is to be hoped that this policy may be continued until every room

in every building is well furnished and fitted out with whatever may be helpful to pupils and teachers.

The one great accomplishment at the Butler Building has been the installing of the new heating plant and its accessories. Conditions in this building had become intolerable and something had to be done. In response to this urgent need the town generously appropriated money for the purpose of properly heating and ventilating the entire building in a manner satisfactory to the State Inspector of public buildings. It is not for me to report what has been done to properly care for the many pupils and teachers in this building—that might more appropriately belong to the school committee who had the supervision of the undertaking—suffice it to say that at no time since the building was erected have the heating, ventilating, and sanitary arrangements been as complete and satisfactory as at the present time.

TEACHERS.

Few changes will be found in our teaching force. Many of our teachers have had considerable experience in their chosen calling and their faithful service has produced good results. The addition of a commercial course to the curriculum of the High School necessitated a teacher for this department, and Miss Angie L. Pulsifer, a teacher of experience in this line of work, was asked to take the position thus created.

The Chicopee school, now on its third term since its reopening, has been in charge of Miss Alice G. Barker who has been faithful and painstaking with her few pupils. At the close of the spring term Miss Mary H. Oleson resigned as teacher of the Prescott school. Miss Olive M. Tarbell, of West Groton, took this school for the fall term and did good, faithful work. Not wishing, however, to make teaching her profession, Miss Tarbell resigned at the end of the term and Miss Letitia V. Ward, of this

town, a teacher of several years' experience, was appointed to fill the vacancy. The schools at West Groton have been in charge of the same teachers as for several years past. Miss Bertha C. Bixby has been granted leave of absence for this winter term—Miss Evelyn Fernald of the Fitchburg Normal School taking her place—but it is expected that Miss Bixby will return to her school at the beginning of the spring term.

AGE AND TIME OF ADMISSION.

The work of the primary schools in the past has been more or less hindered by two causes, namely, the admission to these schools of very young children whose proper place was at home, and the entrance in the spring term of some who were going to begin their real school career in the following September. This state of things imposed additional cares on the teacher, interfered with the daily schedule, was a distinct disadvantage to the regular classes, and in fact, was productive of nothing substantial, tending rather to lower the standard of the school.

Believing that it is not the function of the primary school to be the guardian of children too immature to begin the regular course of study, and that there is no good and sufficient reason for breaking in, so to speak, children in the spring term, the following rules have been made by the school committee :

“No child shall be allowed to enter the public schools of Groton, who is not six years of age, or does not become so before January first of that school year.”

“No child under the required school age, which is seven years, shall be allowed to begin school in the spring term.”

The wisdom of this action on the part of the school authorities can hardly be questioned, and the good effects of the first rule are already apparent. Teachers report that they are now able to accomplish more and to get bet-

ter results than before the existence of this regulation. And it might be stated right here that parents have done their part by recognizing the situation and conforming to it without question. There can be no doubt about the effect of the second rule on the work of the coming spring term.

COST OF THE SCHOOLS.

The increased cost of living and the upward tendency of expenses even in the getting of an education make the question of the support of schools an important one. The demands upon teachers are increasing, those now in the higher institutions fitting for the service are going to considerable expense to get their education and training, and, if this state of things continues, it will be more and more difficult to secure good teachers, unless the compensation is commensurate with the expenses.

Local conditions must be faced in considering this subject. In a town where the population is largely concentrated and where to a great extent electric cars are the means of conveying the scattered few to well appointed central schools, the per capita cost will be much less than in a town like ours, where none of these conditions prevail.

As showing our position in the three hundred and fifty-three towns and cities of the State, the graduated tables of the report of the State Board of Education may be interesting.

In a graduated taxation table showing the comparative amounts of money expended for the support of the public schools per child, as determined (1) by the number of children between five and fifteen years of age in the town or city, and (2) by the number of children in the average membership of the public schools, our rank for the year 1903-4 was fifty-five; for 1904-5 it was forty-six. The local conditions to which I have referred explain this rank.

In the graduated valuation table, in which all of the

towns of the State are numerically arranged according to the proportion of their taxable property appropriated for the support of the public schools, our rank for the year 1903-4 was two hundred and seventy-nine; for the year 1904-5 it was two hundred and ninety.

Thus it will be seen that our position in the first table is high, while in the amount appropriated for the support of the public schools for each thousand dollars of valuation our standing is low.

OUR NEEDS.

After all has been said and attempted in the past few years it may seem useless to refer again to our school accommodations. Yet our schools are handicapped by the buildings in which they are housed, and I cannot refrain from repeating that I do not believe crowded and insufficient rooms, buildings with cold entries, rooms heated with wood stoves and ventilated only by opening windows or doors, are conducive to the health, comfort, or development of school children; nor do they conform to modern ideas on this subject.

The Butler Building with its new and improved heating and ventilating system is well adapted for a four room building without going to the third story, or the entire building could be put at the disposal of the High School, and this with one other modern building would meet the needs of the town for years to come. This is a simple solution of the problem, and the children who will always be with us and in whom so much interest will always center, can be benefitted in no better or more substantial way than by attacking the problem fairly and squarely, and giving them the equipment we all know they should properly have.

THE HIGH SCHOOL.

The demands upon the High School are constantly increasing and are fast getting out of proportion to its facil-

ities. In point of numbers it continues to be large, and this year has registered eighty-two pupils, a larger number than the main room can comfortably accommodate. At present the girls outnumber the boys by a larger margin than usual, due simply to the fact that all through the grades these classes have had more girls than boys in their membership. The graduates of the school who have left behind them good records of conduct and scholarship are doing well, and there are ten or more at the present time in the higher institutions of learning.

But the adoption of the new courses of study is the most important thing to mention. The old courses have been revised and a commercial course added, so that now there are three well-defined courses to meet the wants of the different pupils—the college, general, and commercial courses. This means more work, more teachers, and consequently more expense, but the call for these courses was so loud that it seemed best to heed it and trust to the future to properly provide for the increasing demands of modern conditions. These courses are now being worked out in the classroom, and promise in their development additional advantages and good results giving as they do a wider range to pupils not especially interested in many of the studies of the old curriculum.

It is interesting to note the motives of pupils of any school, especially of pupils beyond the required school age, and much may be learned from conversation with them. Some are in school because they really desire an education, others because their parents wish, in some cases compel, them to go to school, still others because they enjoy the school life and associations, even though they dislike hard study. It is needless to speak of the quality of the work of these different classes of pupils, or of their attainments when they come to leave school. The results are the same here as in other walks in life.

There is no more difficult task than to make many pupils

of the High School age realize that their education is their present business and their principal business, and that other matters should be secondary. It calls for the combined effort and patience of parents and teachers, it requires firmness and persistency, but it is worth while, if only we can save our boys and girls from disappointment when their school life is behind them.

MEDICAL INSPECTION.

An important piece of school legislation in the year 1906 was an act relative to the appointment of school physicians. For a long time there has been a feeling that more attention should be given to the physical well-being of school children, and that in the smaller places where practically nothing has been done in the way of medical inspection some legislation was necessary.

The new law has been complied with so far as it relates to the duties of the teacher, and it now remains for the town to take some action in regard to the appropriation of money to meet the expense incurred by the appointment of a school physician by the school committee.

That the town may know just what this act is, it is herewith quoted.

ACTS OF 1906, CHAPTER 502.

An Act relative to the appointment of school physicians.

SECTION 1. The school committee of every city and town in the Commonwealth shall appoint one or more school physicians, shall assign one to each public school within its city or town, and shall provide them with all proper facilities for the performance of their duties as prescribed in this act: *provided, however,* that in cities wherein the board of health is already maintaining or shall hereafter maintain substantially such medical inspection as this act requires, the board of health shall appoint and assign the school physician.

SECT. 2. Every school physician shall make a prompt exam-

ination and diagnosis of all children referred to him as herein-after provided, and such further examination of teachers, janitors and school buildings as in his opinion the protection of the health of the pupils may require.

SECT. 3. The school committee shall cause to be referred to a school physician for examination and diagnosis every child returning to school without a certificate from the board of health after absence on account of illness or from unknown cause; and every child in the schools under its jurisdiction who shows signs of being in ill health or of suffering from infectious or contagious disease, unless he is at once excluded from school by the teacher; except that in the case of schools in remote and isolated situations the school committee may make such other arrangements as may best carry out the purpose of this act.

SECT. 4. The school committee shall cause notice of the disease or defects, if any, from which any child is found to be suffering to be sent to his parent or guardian. Whenever a child shows symptoms of smallpox, scarlet fever, measles, chickenpox, tuberculosis, diphtheria or influenza, tonsilitis, whooping cough, mumps, scabies or trachoma, he shall be sent home immediately, or as soon as safe and proper conveyance can be found, and the board of health shall at once be notified.

SECT. 5. The school committee of every city and town shall cause every child in the public schools to be separately and carefully tested and examined at least once in every school year to ascertain whether he is suffering from defective sight or hearing or from any other disability or defect tending to prevent his receiving the full benefit of his school work, or requiring a modification of the school work in order to prevent injury to the child or to secure the best educational results. The tests of sight and hearing shall be made by teachers. The committee shall cause notice of any defect or disability requiring treatment to be sent to the parent or guardian of the child, and shall require a physical record of each child to be kept in such form as the state board of education shall prescribe.

SECT. 6. The state board of health shall prescribe the directions for tests of sight and hearing and the state board of education shall, after consultation with the state board of health,

prescribe and furnish to school committees suitable rules of instruction, testcards, blanks, record books and other useful appliances for carrying out the purposes of this act, and shall provide for pupils in the normal schools instruction and practice in the best methods of testing the sight and hearing of children. The state board of education may expend during the year nineteen hundred and six a sum not greater than fifteen hundred dollars, and annually thereafter a sum not greater than five hundred dollars for the purpose of supplying the material required by this act.

SECT. 7. The expense which a city or town may incur by virtue of the authority herein vested in the school committee or board of health, as the case may be, shall not exceed the amount appropriated for that purpose in cities by the city council and in towns by a town meeting. The appropriation shall precede any expenditure or any indebtedness which may be incurred under this act, and the sum appropriated shall be deemed a sufficient appropriation in the municipality where it is made. Such appropriation need not specify to what section of the act it shall apply, and may be voted as a total appropriation to be applied in carrying out the purposes of the act.

SECT. 8. This act shall take effect on the first day of September in the year nineteen hundred and six. [*Approved June 20, 1906.*]

INDIVIDUAL ATTENTION.

In these days we are learning much about the child as an individual, and that to a greater or less degree the class system should give place to individual help and attention. No one will question that the schools in attempting to perform their duty of preparing children for a successful life in coming years should give as much individual help as possible. In every schoolroom may be found pupils with mental powers and equipment which enables them to far outstrip their schoolmates. Heredity and environment may account for much of this difference, and the question is how to do justice to the individual child as we find him.

Various methods of promotion have been tried, that instruction suited to the pupil's needs might be given at all times. But the fact is that the teachers in the public schools as at present organized have so many pupils and so much to do that very little time can be given to each individual. It would take many teachers and much money to meet fully the individual needs of each child, especially the needs of those children who are non-average in their mental capacity. The public school, on its present basis, cannot do the work of a private tutor, as some would seem to expect; that is impossible.

These schools are open to all classes of children. They take them as they come, and they do the best they can under the circumstances. If teachers have too many pupils, and so cannot give the individual attention that some parents desire their children to have, the fault is not that of the teachers, but rather that of the public school system. Reasonable effort is being made to operate the schools for the individual good of every child.

In conclusion, the public schools have many friends who know something of the work they are doing, and who appreciate the effort they are putting forth to solve the problems of modern life and social conditions. To them, to the faithful and loyal teachers, and to the School Committee, who have given me their encouragement and support, I wish to express my appreciation.

Respectfully submitted,

JOHN H. MANNING.

OTHER REPORTS

REPORT OF THE SUPERVISOR OF MUSIC.

MR. J. H. MANNING,
Superintendent of Schools,
Groton, Mass.

Dear Sir: The need of individual instruction in music in the public schools is coming to be generally recognized although there are many places throughout the country where it has not been tried and where the work is carried on in blissful ignorance of the fact that where the instruction in music is conducted classwise exclusively, only a very small percentage of pupils can acquire any independent knowledge of the principles of music. It is God's law, affecting everything in the natural world and in the realm of human activity, that progress is gained alone through individual effort and we pervert this law in the public instruction in music by not allowing or by not obliging the pupil to work out his individual salvation, musically.

"Power is gained by overcoming obstacles," and we learn to do things only by doing them. The great majority of pupils never have an opportunity to do things alone and consequently never acquire ability to do them, which accounts in a great measure for the deplorable lack of ability to read music independently by the great percentage of people graduated from the public schools; I mean that the method of teaching music exclusively classwise absolutely prevents the acquiring of independent ability, except on the part of a few leaders, the most apt

pupils of the class. The great majority are simply trailers carried along, irresistibly by the leaders and they do not have an opportunity to develop any motive power of their own. The child never learned to walk by being carried by fond parents. Give the child an opportunity to stand on his own feet, musically, to take his first step unaided, to fall if need be and then try again and again until power is developed. Then do not thwart the law of the Almighty by preventing him from ever taking another step unless surrounded and aided by his fellows. Twenty per cent. of pupils of a school will acquire independent ability in reading music under the class instruction, and in our experience over ninety-five per cent. will under proper individual instruction.

There are of course many modes of procedure in individual work in music, with many of which I have had experience. The method of calling for volunteers to "sing a solo" with much coddling and flattery, is a detestable device and is in no sense teaching.

The pupil is bound to gain ability in sight reading only by reading that which is new. The following of an individual system results in far greater interest in music on the part of the pupil, it obliges every one to learn to read music; it has a wonderful effect in discipline and attention; it quickens mental activity and is a potent factor in teaching mental concentration and self-control.

The High School is no place to teach note reading. You cannot expect to teach primary work after they have taken up High School work. Carry them along with good music and secure their interest by employing their time in singing the very best and most interesting music which they are capable of learning.

There are no phenomenal voices in the school at present, but the individual method of instruction used in the lower grades has discovered and drawn out a fair singing ability in an unusual percentage of the pupils. The school music work

should be made to touch the life of the child in school, in home, in church and in social circles as closely as possible.

An exhibition of our work in music will be given in the Town Hall, sometime in June. I find this a good way of bringing the results of our work directly before the people. The last year has been no exception to the previous years in the steady, honest growth of the music in the Groton schools.

In conclusion, I take this opportunity of expressing my thanks to the Committee, Superintendent, teachers, parents and citizens for their courtesy and co-operation the past year.

Very respectfully,

J. AVISON BAKER.

*

REPORT OF THE SUPERVISOR OF DRAWING.

MR. J. H. MANNING,
Superintendent of Schools,
Groton, Mass.

I have the honor to submit my fourth annual report as Supervisor of Drawing in the public schools of Groton.

In drawing, as well as in many other branches of education, "practise makes perfect." I believe in allowing a child to do his own work with little or no direct aid, for it is valuable to him only when accomplished in that way. There can be no possible satisfaction to a child in taking home an article and having to admit that the teacher made most of it. He can never learn to do perfect work if he never has a chance to try. Too difficult or complicated work leads to carelessness.

Mechanical drawing is an exact science, admitting of no partly correct problems. Apply this statement to some mechanical movement and its force becomes apparent. To quote from a recent lecture, "If a little force pump works it works, and if it doesn't work no amount of excuse or explanation on the part of the pupil can make it work." The value of drawing in the higher grades lies largely in the training acquired, and but little in the articles or drawings made. If all these were to be destroyed, the skill of hand and ingenuity of brain developed in devising and making them would still remain with the pupil.

It seems safe to say that at no previous time in the history of this nation has there ever been such universal awakening to a sense of beauty. With this awakening

comes the increased demand for workmen who can supply it. Everything, from massive buildings down to silver trinkets, must be suitable and beautiful in every detail, naturally creating a demand for artistic architects and designers for a multitude of different things. There must exist a great demand for finely illustrated magazines, else publishers would not, at much expense to themselves, secure the best possible work in this line every month. But this very demand supplies work for the painters and illustrators.

The Arts and Crafts Societies, and some settlements more or less related, not only help to supply the demand for artistic objects and useful articles, but furnish work for an increasing number. Not so very many years ago a person with a decided artistic taste either tried to become a painter or else engaged in some occupation not even remotely connected with art. Now he may choose from among many different pursuits — alike in this, however, that a person of artistic taste and ability is required in each.

The work in drawing in your town has been carried on along practically the same lines as usual this year. In most of the rooms it continues to average very well. Since we intend to have an exhibition in the Spring, it seemed best to save the work for that, and therefore we have sent no drawings to the School Arts Guild this year. The High School drawing classes this year are using the north room on the ground floor. Four periods are devoted to it per week.

I wish in closing to thank the school officials for their courtesy and help, the teachers for their interest and co-operation.

Respectfully submitted,

E. M. BRADLEY.

March 5, 1907.

REPORTS OF TRUANT OFFICERS.

GROTON, Feb. 28, 1907.

To the School Committee of Groton :

I, the undersigned, truant officer of Groton, make to you the following report :

I have found no violation of the law in regard to manufacturing establishments.

My attention has been called to several cases of truancy and non-attendance, to which I have attended.

Respectfully submitted,

SOLON R. DODGE.

WEST GROTON, March 1, 1907.

To the Superintendent of Schools :

I have had several cases of non-attendance brought to my notice ; to these I have attended.

The manufacturing places are complying with the law in regard to the employment of school children.

Respectfully,

FRED L. BLOOD.

Clarence John Hemenway,

Frank Russell Mason,

John Moyle, Jr.,

Carl William Strand,

Howard Graves Tuttle.

ROLL OF HONOR.

The roll of honor, herewith printed, is a continuation of that given in last year's report, and covers the calendar year 1906. It is a just recognition of the effort made, in many families, to be regular and punctual in school attendance, and these records ought to be both an encouragement and an incentive to all to cultivate the habits of regularity and promptness in the performance of every duty.

Neither Absent nor Tardy During the Year 1906.

HIGH SCHOOL.

WINTER TERM.

John M. Bradley	Mary A. Dunphy
James H. Dunphy	Catherine M. Dilbert
John T. Gay	Edith L. Messinger
Harold H. Woods
